Summary

Detail oriented full-stack web developer with a passion for helping businesses find solutions to their online needs. Completing a web development certificate through the University of Richmond. Demonstrated ability to collaborate with teams to create dynamic web applications using mobile-first designs. Experienced group leader who has managed multiple projects simultaneously and strives to create quality applications while maintaining professional design standards.

Skills

- HTML 5, CSS 3, and JavaScript
- Node.js and Express.js
- MySQL and MongoDB
- Agile Web Development
- Responsive Design
- Mobile First Design

Projects

Workout Crusher

Live Site: <https://ancient-river-16818.herokuapp.com> | *Github:* <https://github.com/ejsmith13/workout-crusher>

Workout Crusher is an application that suggests new workouts for users and allows them to track their daily exercise routines. It uses MySQL and Sequelize to track and store information about workouts and suggested exercises. It uses a mobile first design with Bootstrap on the front end along with Express framework for the backend.

Holiday Movie Finder

Live Site: https://vpatt1031.github.io/movie_roulette/ | *Github:* https://github.com/vpatt1031/movie_roulette

This project uses multiple APIs to pull movie information about upcoming holidays throughout the year. We used HTML, CSS, JavaScript, two APIs, and agile methods to create our application. I personally took charge of the page that allows users to save movies for future consideration.

EXPERIENCE

Hydraulics Mechanic and Fabricator

AFP Industries Inc, Richmond, VA-

2019 - Present

Construct custom hydraulic power units using blueprints to ensure compliance with customer requirements, diagnose issues with hydraulic pumps and electric motors, assist in receiving inventory, and track new orders as well as related components using digital inventory management systems.

Grounds Superintendent and Maintenance Lead

A Bar A Ranch, Encampment, WY

2013 - 2020

Trained and managed a four person grounds crew, created and implemented fertilization, mowing, and watering schedules, maintained the golf course and all maintenance equipment, responsible for tracking inventory and ordering supplies.

- Recognized for ability to quickly adapt to changing situations and for creative problem solving
